

Skin Deep – Advanced Botox Treatment

Whoever said beauty is skin deep was absolutely right. As we grow older, the elasticity of the skin becomes looser, collagen levels drop and the skin tends to sag. Modern technological breakthroughs have found solutions for men and women to experience what it means to be forever young. Beauty regimes and treatment, even face lifts and beauty augmenting surgeries have been known to have been performed in ancient times all over the world. Ancient Egyptian texts have recorded texts on the procedures and methods used. Vanity has always existed since time immemorial.

In modern times, men and women in who are in their thirties are no longer shy to visit a cosmetic surgeon for tips, treatments and various ways to get healthy, young and fresh looking skin. Botox is a treatment that is an approved medication therapy that works by relaxing the muscles of the face which cause wrinkles as the years go by and age progresses. Men and women who are conscious of their looks and grooming, especially those who are a part of the entertainment industry are constantly on the lookout for newer, painless and non-invasive treatments. Botox generally lasts for about 3-4 months and is used for the reduction of fine lines around the eyes, mouth, and neck. It is especially used to even out dark circles that form under the eyes. This form of re-infusing the skin with a burst of collagens has been in existence for at least the last 100 years.

Most men and women dream of a flawless and wrinkle free skin, much like how it was when they were young. As certain as it is with the cycles of life, aging too is inevitable. One can either choose to age gracefully or they can fight it all their lives without the correct knowhow. We all know who the winner will be! Those men and women who age gracefully are aware of every line and wrinkle that adorns their face and neck. They are aware of exactly how much and what work is needed to continue to maintain a fresh and youthful look. Botox treatments help to slow down the aging process considerably.

Since this treatment involves very little time commitment, most men and women can even have this procedure performed on them during their lunch break. Depending on the requirement, area and kind of procedure, the cosmetic surgeon will be able to guide a patient on the costs involved. It is however, important to visit a licensed, experienced and skilful surgeon who will administer the treatment correctly. Advanced Botox treatments can be given to men and women who have eye spasms and excessive muscle contraptions too.

Botulinum toxin is a natural substance that is secreted by various botulism bacteria. In advanced Botox treatments, the acetylcholine which is releases is jammed towards affected nerves or muscles and this helps them to contract. By blocking this signal, there is a momentary relaxation of the muscles on which this treatment has been administered. This helps the treated muscles to remain in a more relaxed state for a longer period of time. Advanced Botox treatments are also used by men and women who suffer from chronic migraines too. This treatment can also be given to men and women in their underarms.

Each day brings us closer to newer and more advanced forms of Botox treatments. This treatment like fine wine gets better and last longer than before. For a complete surge in confidence, self-esteem or even to just get your groove back, take the plunge and opt for a Botox treatment for a youthful and wrinkle free visage!
